

CAT TRACKS

MEMORIAL ISSUE

This issue is dedicated to Carrie, who passed away on October 28, 2002. Carrie deserved more than the two years of peace and serenity that she received here at CRMLS, but at least she had a second chance, unlike the many neglected cougars that we turn away each year. Thanks to all of our volunteers that helped Carrie have a better life.

Good News: Mountain State Wire and Fence has begun work on a new enclosure next to Carrie's. We had enough money left over from the last grant to build another all-natural habitat. Now we will be able to help another mountain lion in need.

Update: Carrie's enclosure has been refurbished and is ready for Mariah. Mariah needs more space so she will be moving into Carrie's enclosure this spring.

In the Future: CRMLS receives many calls each year to rescue other native wildcats. This coming year, we will keep Mariah's enclosure available for a lynx or bobcat in need.

Big Possibilities: CRMLS is trying to get a much needed pavilion built for the many educational activities we have each year. A few of our wonderful volunteers are currently working on getting corporate help for this project.

THANKS: Once again thanks goes out to everyone that supports CRMLS. These cats couldn't make it without you all!!!

MERRY CHRISTMAS!!!

WHO WE ARE

CRMLS is a non-profit organization located on 168 wooded acres tucked into an isolated rural West Virginia area. We offer a sanctuary home for displaced captive-born mountain lions. We neither breed nor sell mountain lions. **Your donations support our work!!** CRMLS is licensed/permitted by the WV DNR and the USDA.
